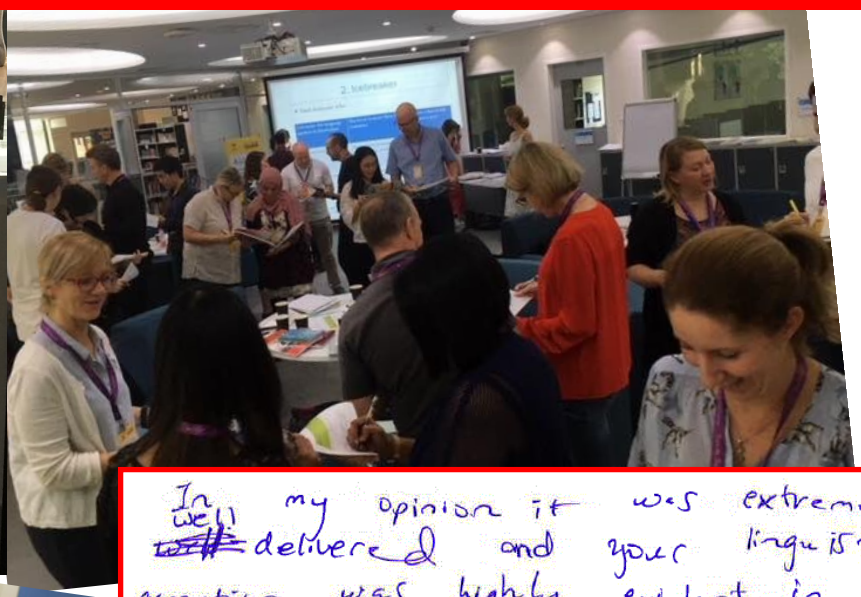
The British School of Guangzhou

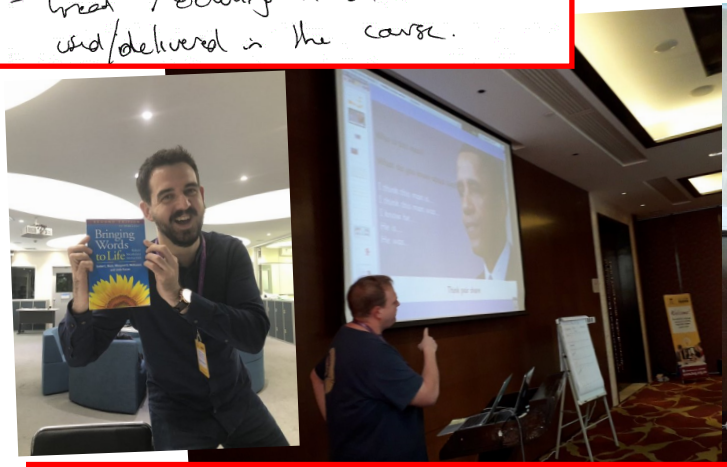
Professional Learning Leaders' course November 2018



In my opinion it was extremely well delivered and your linguistic expertise was highly evident in every session.

Really practical course - lots of useful + relevant info with links to professional reading + research.
- I liked the discussions + sharing of ideas
- Great modeling of activities to be used/delivered in the course.

Really useful for all teachers across the curriculum.



Extremely worthwhile. It has restructured my strategic thinking about how to ~~deal~~ deliver this in a whole school context.
